The wheat market opened active and advanced %c. in the early trading, the buying orders overcoming the fractionally lower first prices. The cables were stronger, which stimulated covering by shorts, December and there was some outside buying. A fair amount of March wheat was taken for foreign account at 2 3-16c over May. The outside operators in Chicago were free sellers. The receipts in Minneapolls and Duluth were unexpectedly large, which, with moderate clearances and a feeling that it was about time for a reaction from Syndicate Buys Little May Mine.

OATS. LARD. PORK. 10.00-62% 10.87% 10.60

There was a slight decline in prices on the Cotton Exchange, at the opening, on disappointing cables from Liverpool, and a further pressure to sell the new crop months from the South and by local traders. A further decline of 2 and 3 points was followed by a partial rally. The large receipts at Southern points have aroused the apprehension of nervous holders, and led to some liquidation, but later the market rallied on better accounts from Liverpool, but the support was withdrawn when the subsequent Liverpool cables were of a lower tone, and in the afternoom the market was depressed, with very light trading. The sales of the day were 114,200 bales, and the closing prices were from 3 to 5 points below yesterday's figures.

The weekly entered receipts were rather larger than expected, pointing to 48,000 bales against 41,231 bales last week, and 00,501 bales for the corresponding week lasty year. It is expected there will be a loss of 30,000 bales in interior stocks. Reports are current of a scarcity of spot cotton in the South, and this strengthens the feeling of New York holders.
